## 5. TENDER SELECTION CRITERION

The selection criterion is most economically advantageous tender. An explanation is given for the application of the relative significance attached to each individual criterion as follows.

The Contracting Authority shall select the **Most Economically Advantageous Tender (MEAT)** from among the eligible tenders of capable tenderers based on the following criteria:

1. Price – Best price offer will be valued with 80 points in the assessment.  
Points will be calculated according to the following formula:

$$Pp = (Pmin / Poff) * 80$$

Pp = Price points awarded

Pmin = Lowest offered tender price

Poff = Price offered (from the evaluated offer)

2. Delivery time – Delivery time is participating in assessment with 20 points

Points will be calculated according to the following formula:

$$Pdt = (DTmin / DToff) * 20$$

Pdt = Delivery time points awarded

DTmin = Lowest offered delivery time in days (sum of delivery time for each unit)

DToff = Delivery time offered in days (from the evaluated offer- sum of delivery time for each unit)

$$\text{Criterion MEAT: } To = Pp + Pdt$$

To = Tenderer offer

Tenderer with the **highest MEAT** score will be awarded.

Based on the selection results and evaluation of tenders, the Contracting Authority shall make a Decision on Selection within ten (10) calendar days from the date of expiry of the deadline for submission of tenders.

The Contracting Authority makes a Decision on the selection of the best tender, which will contain at least the name and address of the selected tenderer, the total value of the selected tender, the date of adoption and signature of the responsible person.
